Notes for Detailer:

- Leg lengths (X & Y) are made to project requirements but are typically 600 - 1000mm, if unsure of lengths required leave blank and we will detail from plans.
- The profiles shown are for indicative purposes only, corners can be fabricated for any gutter section e.g Valley etc.
- To assist with detailing include a plan of the gutter layout. Transition and T-Sections will be detailed from plan.
- In general details are returned to the customer for approval prior to fabrication and as a guide to installation on site.
- Corners should be ordered at same time as gutters so both can be folded together.

External Insulated Gutter Corner

Qty	Angle °	Dim "X"	Dim "Y"	Line No. (Office use)

Internal Insulated Gutter Corner

Qty	Angle °	Dim "X"	Dim "Y"	Line No. (Office use)
