PREPAINTED PROPURLIN

EU Profiles Ltd. presents the new Polyester Coated **PREPAINTED PROPURLIN** a premium quality product, fully tested in Ireland, at The Dublin Institute of Technology, Bolton Street. This purlin now offers Architects and Engineers for the first time the opportunity to specify a purlin to complement the white liner sheets and at the same time increasing its performance to resist the effects of atmospheric corrosion.

The **PREPAINTED PROPURLIN** has been computer designed to ensure the ultimate section for your requirements. All loadings are contained in our specifiers manual.

The **PREPAINTED PROPURLIN** range of Purlins and sheeting rails have been designed in accordance with the requirements of BS 5950: Part 5: 1987.

The new Polyester Coated **PREPAINTED PROPURLIN** range of purlins and sheeting rails are manufactured in a specially coated galvanised steel of high quality particularly adapted for structural

This state of the art steel material consists of:

- ② *Basic Substrate: a galvanised crack-resistant steel with a coating weight of 275g/m², offering flexibility, corrosion resistance and durability.*
- ③ *A 15µm thick flexible primer specially designed to resist corrosion, applied on both sides.*
- ④ *A 20µm thick flexible chemical and corrosion resistant **Polyester Resin finish** (Chalk White Top Coat) applied on each side.*

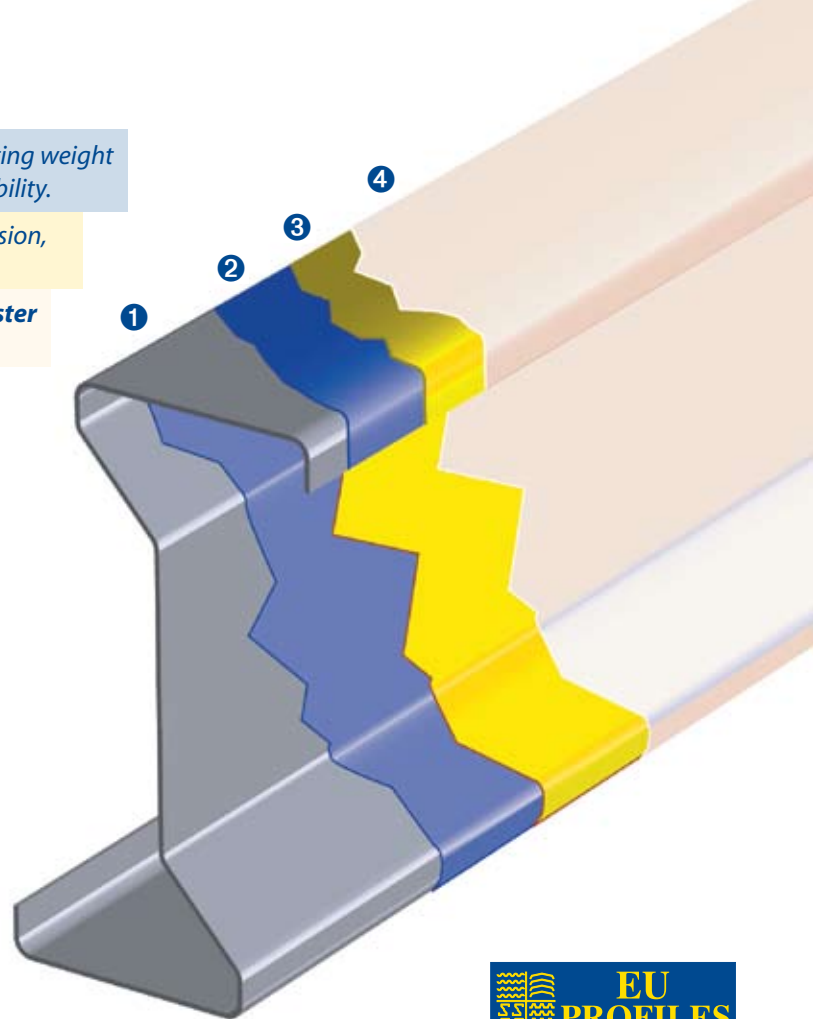

components.

Advantage:

Degreasing, priming and painting are now History. This has been the only solution available to Architects and Engineers seeking further protection for purlins and sheeting rails. This process has often resulted in the paint coating peeling from the purlins. See the difference for yourself. (Photos 1 & 2).

Applications:

*All buildings requiring a high standard of finish and added protection to all of its components including Purlins and sheeting rails. The **PREPAINTED PROPURLIN** has a light Chalk White finish, which gives a bright airy atmosphere and added aesthetic value to any building.*

Rath-Wood Home & Garden World - Rath, Tullow, Co. Carlow.
